

Linda

As someone who would once have been sceptical about the benefits of a visit to The Barn Therapy Centre, I would like to thank you for the wonderful treatments you have recently provided.

Having been made to feel most welcome and immediately at ease upon arrival, you talked me through a plan of action to help my regular headaches and long-term knee problem.

After just 2 relaxing and thoroughly enjoyable visits, I can report a vast reduction in the discomfort I have put up with for years.

Thank you Linda, I look forward to returning soon, and telling everyone I know that they need to come see you

Chris Rivett
