

TESTIMONIAL

To **Linda Thursby** of the **Barn Therapy Centre**

I would just like to say, following another treatment with Linda, what an absolute pleasure for mind and body it is visiting the Barn Therapy Centre.

I had a normal relaxing back massage on this occasion which always includes a general condition survey and repair job!! Linda knows exactly where the problem areas are without having to tell her and she certainly knows how to fix them.

The time spent on the treatment table is so very relaxing, therapeutic and darn right good for you to boot. I always come away with a warm glow, eased pain and a mellow mind.

Linda explained some of the Reiki treatments she performs after I noticed the warmth her hand generated while merely laying her hands on the bottom of my legs. It is so very relaxing and so very hard to comprehend how this all happens. I am fascinated and must return to experience and learn more about Linda's art.

YOU SHOULD ALL TRY IT!!

Thank you Linda.
